The Evening Trains.

The first train leaves at 6 p. m. For the land where the sleep-flower blows. The mother dear is the engineer, And the passenger laughs and crows. The palace car is the mother's arms; The whistle a low, sweet, strain; The passenger winks and nods and blinks, And goes to sleep on the train. At 8 p. m. the next train starts For the pleasant land afar; The summons clear falls on the ear, "All aboard for the sleeping car!" But what is the fare to this pleasant land? I hope it is not too dear; The fare is this—a loving kiss—And it is paid to the engineer. So I ask of him who the children took On his knee in kindness great, "Take charge, I pray, of the trains each day, That leave at 6 and 8. "Keep watch o'er the passengers," thus I pray, "For they are very dear; And have special ward, oh gracious Lord, O'er the gentle engineer." —Selected.

An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleaning, is to bring comfort home to their hearts, as a positive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Co. only, and sold by all druggists.

Laingsburg.

There was a slight blaze in the Dusenberry livery barn this week. The fire department responded promptly and the flames were soon extinguished. Appropos of the Philippine troubles, Hugh Clifford, British Resident at Pahan, Malay States, contributes to the November number of the Atlantic Monthly a striking and valuable article. A lesson from the Malay States, based on the knowledge derived from his long experience among Malay tribes. The article is replete with good sense and the fruits of long observation, and is a most valuable contribution to the solution of this difficult and pressing question.
